

Welcome to WebWork (Math 110 Online Homework)

- Web Address: <https://webwork.fortlewis.edu/webwork2/Math110>
- Your username AND password will be your FLC ID number (#900_____). Do not change your password.

General Tips

- We encourage you to work on your WebWork assignments on campus, preferably in the Algebra Alcove, Jones 147.
- All problems are randomly generated so each student will see different problems in each of their assignments.
- You are allowed **FIVE** attempts per problem. If you do not submit the correct answer on the fifth try, the problem will be marked wrong. You should type in answers for all parts of each problem before submitting your answer.
- Answers with a decimal should be rounded to four decimal places unless otherwise stated.
